Info

A fantastic new album from one of Germany's best bands. "Fire From The Soul" combines all elements you can expect from a new **EPITAPH** album in the year 2016: 'singing' twin guitars and sparkling rock songs with choral singing for several voices. This album is surprising all along the line through the steady quality from the first to the last song. A lucky bag: retro and modern at the same time, from the opener "Nightmare" (first single) over the symphonic, almost 9 minutes title track to the soulful "Love Child". As guest musicians on this album you can hear Tim Reese (Truckstop) and Pete Sage (Santiano) on violin as well as Klaus Henatsch (Nektar) on piano and keyboards. At last Epitaph is back in the frontrow of German bands!
